DETAILED ACTION

Declaration

Applicant's declaration filed June 2, 2005 is acceptable.

Claim Objections

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 35 and 35 been renumbered as 35 and 36, respectively.

Allowable Subject Matter

Claims 1-18, 20-31 and 34-36 are allowable.

The following is an examiner's statement of reasons for allowance: Regarding claim 1, the prior art of record fails to show a seating device wherein at least one of the connecting element and supporting element comprises at least one stop so as to permit the supporting element to pivot between a first position whereat the supporting element

Art Unit: 3636

is in a substantially vertical position and a second position whereat the supporting element is forwardly inclined of 30 degrees or less with respect to the first position, in combination with other specifically claimed features.

Regarding claim 20, the prior art of record fails to show a seating device wherein at least one of the connecting element and supporting element comprises at least one stop so as to permit the supporting element to pivot between a first position whereat the supporting element is in a substantially vertical position and a second position whereat the supporting element is forwardly inclined of 30 degrees or less with respect to the first position, in combination with other specifically claimed features.

Regarding claim 26, the prior art of record fails to show a seating device wherein the first and second members are pivotally connected together and the supporting element comprises at least one stop so that the first member is allowed to pivot between a first position whereat the first member is in a substantially vertical position, and a second position whereat the first member is forwardly inclined of 30 degrees or less with respect to the first position, in combination with other specifically claimed features.

Regarding claim 34, the prior art of record fails to show a method for a person to stabilize his posture including the steps of providing a seating device comprising a seat connected to a stem, the stem being adapted to pivot between a first position whereat the stem is in a substantially vertical position, and a second position whereat the stem is

forwardly inclined of 30 degrees or less with respect to the first position; and inserting an end portion of the stem into an aperture defined within a floor so as to stabilize the seating device, and sitting on the seat and selecting a least one position by inclining the stem, thereby providing a further point of support.

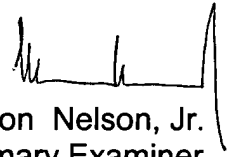

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
